

# Explore the Titans UP! Program at St. Petersburg College

*A one-year certificate program for students with intellectual disabilities.*

**The Titan's UP! Program** is a one-year (four-semester) non-degree certificate program offering an integrated peer-to-peer classroom experience for students with an IQ of 70 or below. Students may choose from a variety of academic Pathways offered available at different campuses. This is a fully adaptive college experience with the goal of providing students with intellectual disabilities the skills and knowledge required to transition to independent adult roles and community-based employment.

**The Titan's UP! Program** focuses on the following areas:

### ***Campus Activities***

Students are encouraged to participate in campus activities such as clubs, sports, and events. In preparation for living a full, productive life, mentors assist students in becoming active members of the college community.

### ***Academics***

Students will audit SPC courses while participating with non-disabled peers and may take the courses for credit depending upon recommendations. A coach attends classes with students and provides support for assignments, projects, and quizzes.

### ***Workshops***

Students will engage in STAR (Students Transitioning to Adult Roles) workshops to focus on academic achievement, independent living, self-determination, campus and community engagement, and career development and employment.

### ***Employment***

Students will engage in 24 weeks of Supported Employment services. In Phase I (Discovery of Career Interests), students will target two or three career choices that might be a good personal fit. In Phase II (Getting a Job), students will write a resume, participate in mock interviews, complete applications, secure a job, and participate in on-the-job training.

### **Florida Residents Receive a \$7,000 Scholarship**

which covers all tuition, books, and fees for any four-semester Certificate Pathway.
