PROFESSORS EMERITI

Donald H. Davis taught social science and human services courses on all St. Petersburg Junior College campuses for 30 years until he retired in 1994. In 2003, he returned to part-time work

supervising special education practicum and final intern students. This entailed observing and evaluating student teachers at various schools.

He also volunteered for numerous college events and worked to foster a good relationship between SPC and local schools.

He received his bachelor's degree in English and a master's degree in special education from the University of South Florida. He currently resides in League City, Texas.

Vernon J. Hagenbuckle taught drawing, design, painting, ceramics and understanding art on the Clearwater and St. Petersburg/Gibbs campuses for 30 years. His teaching laid the

groundwork for the methodology used in the department today.

Since his retirement in 1999, he continues to live and work in Clearwater as a studio artist, specializing in painting. His daily use of sketchbooks was something he emphasized in his classroom and that continues to be an emphasis in the department today.

He received his bachelor's degree in fine and applied arts from the California College of Arts and Crafts and a master's degree in painting from the University of Oregon.

Eva Hefner retired in 2011 after teaching keyboarding, shorthand, business math, business communications, computer and information literacy, microcomputer applications, Microsoft Office/Word and PowerPoint for 35

years at the Tarpon Springs and St. Petersburg/Gibbs campuses. She also served as a faculty advisor to Phi Beta Lambda.

Throughout her time at SPC, she served as a mentor to others in her department and was a frequent volunteer for tasks and committees. She and her husband enjoy sailing and lived for four years on their 44-foot sailboat traveling throughout the tropics.

She received her bachelor's degree in business education from Wayne State University and a master's degree in curriculum and instruction from the University of South Florida.

Jim Hill taught computer programming and Microsoft certification courses at the Clearwater Campus and the EpiCenter for 30 years. At the time of his retirement in 2007, he was in charge of the

Microsoft Certification program collegewide.

He received his bachelor's degree in engineering from the University of Missouri, a master's in industrial management from Florida State University, and a doctorate degree in community college education from Nova Southeastern University

At SPC, he was a valued mentor to new faculty and was always willing to make time to help his students achieve success. Currently, he is a Guardian ad Litem serving the needs of children in foster homes. He also is a volunteer at a local food bank and the Clearwater Police Department.

Wallace W. Kennedy taught accounting and computer programming on the Clearwater Campus for 36 years before retiring in 2007.

He was an innovator, always willing to try out

new technologies before introducing them to other faculty members. He served as a mentor to many, and accumulated an outstanding record of service, participating for many years in the Faculty Governance Organization as a member of the Faculty Senate.

He received his bachelor's in business/accounting and a master's degree in accounting from Florida State University. He now resides in Moreland, Ga.

Carolyn Kistner taught mathematics on the Tarpon Springs Campus for 18 years before retiring in 2010. She participated in numerous professional conferences and co-chaired the Suncoast

Mathematics Association of America conference in 2004. For many years, she also coached the campus' Mathematics Olympic Team.

With her family, she donated the John W. Morris Entomological Collection to SPC, which represents her father's lifelong passion for entomological research.

She received her bachelor's degree in secondary math from State University of New York and a master's degree in curriculum and instruction from the University of South Florida. She currently resides in Palm Harbor.

Maggie Knoop taught wellness and English as a second language at SPC at the Clearwater Campus for 22 years before retiring in 2012. She started the college's volleyball program and

coached the team beginning in 1996. Her team reached the state finals in 1999.

She served as a member of numerous college committees and served as a Faculty Governance Organization senator from 2009-12.

She received her bachelor's degree in physical education and a master's degree in physical education from the University of South Florida. She currently resides in Clearwater Beach.

Susan Parcheta taught introduction to business, business math, human factors in supervision, keyboarding, business communications, word processing and advanced

computer applications on the Clearwater, Tarpon Springs and Health Education Center campuses for 26 years. She retired in 2011.

In the mid-1980s, she developed the first-in-the-nation computer literacy course for nursing students in the mid-1980s. She served on numerous college committees and continues teaching today as an adjunct instructor.

She received her bachelor's degree in business education from Western Michigan University and a master's degree in business and office education from the University of South Florida. She resides in Tarpon Springs.

Mary Lou VanCott served on the faculty at the Caruth Health Education Center for 10 years beginning with the first cohort of students participating in the R.N. to B.S.N. degree program. She

helped develop the program and saw the College of Nursing through two major accreditation visits before retiring in 2013.

She was instrumental in starting a Sigma Theta Tau chapter at SPC, the honorary society for nursing students. In 2009, she was named one of the Top 100 Role Models in Nursing by the Florida Nurses Association. She is a published author and popular presenter at educational conferences.

She received her bachelor's, master's, and doctoral degrees in nursing at the University of South Florida. She resides in Largo.

LEAGUE FOR INNOVATION TEACHING EXCELLENCE

Five selected for the 2013 League for Innovation Teaching Excellence awards

Congratulations to the five faculty members who were selected by the college and were recognized by the League for Innovation for their excellence in teaching.

The Excellence Awards are given annually to community college faculty, staff and administrators who are innovators in teaching and learning. The awards previously were given at NISOD conferences each May. The five recipients and their awards were:

Sandy Cohen, Instructor of Mathematics, received the Outstanding Peer Mentoring award. She works with students who suffer with math and test anxiety, and enjoys seeing them develop self-confidence and determination when they discover that they can do well in

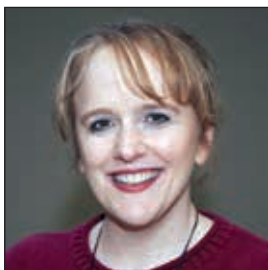

their math courses.

She also enjoys sharing her knowledge with colleagues. In 2011, she started the Faculty Seminar Series on the Tarpon Springs Campus, which allows faculty to meet, eat and discuss issues that pertain to the classroom.

For his four face-to-face classes, he has made 250 video tutorials comprised of screen recording with real time voiceover. He has made another 250 videos for his online class as well. He has noticed an improvement in his students' grades since he started making the videos.

Carmen Simpson, Instructor of Communications, received the Excellence in College Preparatory Education award. For more than 22 years at the college, she has been working to help students reach their potential and know their purpose in life.

Cher Gauweiler, Instructor, College of Education, received the Innovative Approach to Teaching and Learning award. She believes that learning should be fun.

She is a fan of using different forms of drama, saying that it is the best way to integrate all the

language arts, i.e. listening, speaking, viewing, reading and writing. By doing so, she engages her students in role play and debate multiple sides of an issue or has them create mini skits.

She said what drives her success is being able to discern her students' learning styles and adapt her teaching methods accordingly. She creates a workshop-styled atmosphere in the classroom and also incorporates journal writing, mini lectures, group activities and peer reviews.

Mary Ellen Warren, Instructor of English for Academic Purposes, received the Outstanding Student Mentoring award. She comes in for her "Friday class" every week to help students whose reading, writing, vocabulary or grammar

skills are weak.

Richard Musgrave, Instructor of Chemistry, received the Innovation in the Use of Technology award. In the 15 years that he has taught at the St. Petersburg/Gibbs Campus, his teaching style has been greatly enhanced thanks to changing technology.

As an EAP professor since 1996, she has different strategies for getting through to students. She also is a big believer in field trips and events outside the classroom, such as volunteer work, to help encourage learning and community-building.

SPC Foundation Innovation Grants Recipients

The Foundation's Innovation Grants Initiative is made possible through the contributions of Foundation donors, including employee payroll deduction participants. The initiative was designed to help advance the mission of the college by providing financial resources to implement projects that deepen the college experience and advance student achievement. A selection committee comprised of representatives of the community, the college and the Foundation, reviews the applications. This year, more than \$50,000 has been awarded and Innovation grants range up to \$3,500. The program is open to faculty, staff and student groups with faculty advisors, or any team comprised of members of these constituencies.

FGO Creativity Awards (Inaugural year)

Cher Gauweiler, College of Education, Tarpon Springs Campus
Cher created a creative journal with her elementary education class where her students published individual written compositions that responded to artwork in the Leepa-Rattner Museum of Art entitled *Awakening the Artistic Spirit: From a Whisper to a SHOUT*. Cher presented on this project at the International Conference for College Teaching and Learning.

Ray Menard, Natural Science, St. Petersburg/Gibbs Campus
In *The Inhibitory and Antimicrobial Effects of Herbs and Spices*, Ray approaches from a combination of scientific disciplines in order to conduct faculty and student research to determine which herbs and spices have an inhibitory effect on the growth of bacteria. This grant helps SPC students become more competitive in their future academic programs and more marketable in the modern workforce.

David Manson, Fine & Applied Arts, St. Petersburg/Gibbs Campus
David is an accomplished musician who has produced 1,000 professionally recorded DVDs of the Helios Jazz Orchestra and distributed complimentary copies to public school music directors and others. His project involved both SPC music faculty and MIRA students and will enhance student recruitment for music programs at SPC.

Monica Lara and Heyward Mathews, Natural Science, Clearwater Campus
Monica and Heyward used their grant to help set up a high quality marine biology lab. Students collaborate with faculty and gain first-hand experience in scientific research. The lab not only helps students to acquire skills in real research but it also motivates students to present and publish their research at professional science conferences.

Linda Yakle, Communications/ Humanities, Clearwater Campus
Linda walked 300 miles throughout Spain this summer sharing her experience with students in her humanities class. She followed the medieval Camino pilgrimage route and brought an international experience to students in interactive blogs. It is hoped that this project will help to develop the Camino experience into an exciting study abroad course.

In memory of Stephen P. Mikles

Program Director of Respiratory Care, Caruth Health Education Center

Sept. 9, 1952-July 4, 2013

Mikles was a beloved husband, father, grandfather, educator, leader, mentor and friend. Steve moved to Clearwater from his native Syracuse, NY in 1979. He loved outdoor activities such as biking and kayaking, and was one of the top competitive Master runners in the area.

He worked at St. Petersburg College for 34 years, getting his start as an instructor before making his way up to the position of Program Director. On Monday, July 15, he was due to receive an award of recognition for his many years of service and appreciation by the National Board for Respiratory Care (NBRC), the American Association for Respiratory Care (AARC) and the Committee on Accreditation for Respiratory Care (Co ARC).

Steve received his associate and bachelor's degrees with high honors from the State University of New York Upstate Medical Center. He received his master and educational specialist degree from the University of South Florida.
