

Earn Your Titans UP! Certificate of Employment in Digital Photography

Learn skills to become a Photographer for Portraits, Advertising, Travel and more!

Digital Photographers enjoy careers in many specialized industries. This certificate equips students with the essential skills to succeed in the photographic industry. The program will prepare students in marketing their specific photographic brand, and the ability to conceptualize their clients' objective needs, and deliver a technically proficient photographic product to them. The photography courses provide a diverse range of subject matter including camera operation for still photography, various software enhancement programs, both natural and artificial lighting applications, composition, posing, table-top, advertising, commercial applications, critical thinking, and thematic assignments... all leading to the development of a portfolio.

Students in the Digital Photography pathway will explore a variety of exciting opportunities related to studio and portrait photography, marketing and promotion, fund-raising, industrial and scientific photography, public relations, photojournalism, and more.

The Titans UP Program is fully paid by a Grant-Funded Scholarship* and includes general courses focused on life and learning skills, and industry courses focused on foundational skills and concepts.
